

The New Jersey Imperative

Maria Brennan, MSN, RN, CPHQ
Vice President, CNO for Patient Care Services
January 25, 2013

New Jersey's Transformational Nursing Leaders

Academe and Practice - Collaborating Partners

- Nursing Engagement & Empowerment: active participation in legislative state and national committees/task forces
- Clarifying and expanding Nursing's role in healthcare: educators, preceptors, navigators, mentors, coaches, administrators
- Leading the teams through healthcare reform with fiscal responsibility & accountability: Nurse-driven initiatives within value-based purchasing reimbursement system
- Ensuring patient quality outcomes

Academe & Practice Expertise

Academe

- Evidence-based practice
- Research
- Clinical & theoretical education

Practice

- Strategic planning to meet fiscal and quality goals
- Ensuring regulatory compliance & reimbursement requirements
- Structure/process development for positive patient outcomes

Working Together to Inform & Advance Nursing Profession

- Nursing as a practice profession requires both practice experts and education experts to expand the scientific basis for patient care to work together
- New Jersey Nurse Experts taking the lead in bridging the gap and identifying opportunities for nurses to lead healthcare reform

NJ Nursing Organizations

- **NJ-Organization of Nurse Executives**

Advocacy role in working with legislation lobbying for BSN in 10 and removing the APN collaborating agreement

- **Tri-Council for Nursing**

Coming together to speak with one voice to move Nursing forward

- **New Jersey Council of Magnet Organizations**

Partnering for conducting research and establishing EBP models

- **Collaborating Center for Nursing**

Addressing workforce issues and sharing “best practices” for implementing IOM recommendations
